Card Sample Instructions

Cards to be attached securely to items being sold

Attach a 3x5 Index Card to each item you are selling using the examples below. Attach the card to your item securely with painters' or scotch tape. The cards will be removed from the book when they are sold. Please make sure to use enough tape that the card is secure. If cards become detached from your items, there is no way of knowing who they belong to and making so your item will be unable to be sold. Please be mindful that if the wrong kind adhesive is used, the item could be ruined. Selling price needs to be in whole dollar increments or quarters. Under sellers' name note if checks are accepted. Sets or items with multiple pieces need to be bagged and taped closed securely with the labeled card attached to the outside of the bag.
